Canadian Timely Disclosure Pack – For Release 19 July 2006

Seprotech Receives New Orders Valued at \$1.4M

OTTAWA, ONTARIO, 19 July 2006. Seprotech Systems Inc., a leading Canadian water and wastewater treatment systems manufacturer, is pleased to announce new order commitments totaling approximately \$1,400,000. These new orders are for the Seprotech proprietary ROTORDISK® wastewater treatment plants as well as orders for the Government of Canada water treatment systems under an existing standing offer arrangement.

“Our Government orders continue to be strong and we are very happy that the Government of Canada has a high level of confidence in our ability to work on budget and to very tight delivery deadlines, said Martin J. Hauschild, President & CEO of Seprotech. “We are also very pleased to have been selected to supply a ROTORDISK® biological wastewater treatment system for a client in Southern Ontario. This is an advanced tertiary wastewater treatment system that will produce near drinking water quality for discharge into an environmentally sensitive area. This groundbreaking project sets new standards for treatment in Southern Ontario and will serve as a model project in that region.”

Seprotech is a provider of pre-engineered water and wastewater treatment plants to the land development, industrial and military market place, including membrane-based water treatment systems and the ROTORDISK® biological wastewater treatment systems.
